

OVERVIEW

We are here to relieve your pain, technically. Our mission is to deliver simple, stable, and trustworthy technology that federal agencies can rely on. We design solutions that are never over-engineered, always secure by design, grounded in Zero Trust principles, and fully explainable and transparent—so missions can operate with clarity, confidence, and control.

CORE COMPETENCIES

AI & DATA

Harness AI/ML to uncover insights, automate processes, and drive smarter decisions across both structured and unstructured data.

SECURITY & COMPLIANCE

Implement zero-trust practices, data protection, and regulatory compliance (FedRAMP, CMMC, HIPAA) to safeguard systems and enable safe AI adoption.

CLOUD IMPLEMENTATION

Plan, migrate, and optimize applications in the cloud to increase agility, reduce costs, and improve performance.

APPLICATION DEVELOPMENT

Design and build secure, user-focused applications customized to your mission needs and optimized for scalability.

DIFFERENTIATORS

- ✓ Our management team has 20+ years of experience developing software and providing technical expertise for numerous federal entities: USDA, USPS, CPSC, Quantico, Pentagon, NGA, SEC, U.S. Coast Guard, U.S. Department of State, and DIA.
- ✓ We have supported projects that require Top Secret clearance.
- ✓ USAToday has written articles on the Apps we developed.

Sun Microsystems: Java Certified Programmer

PAST PERFORMANCES

DEFENSE INTELLIGENCE AGENCY
Developed SCIF Workflow Accreditation Record Management (SWARM) application to streamline the SCIF request/approval process, which currently only exists in paper format.

Implemented Advanced Global Intelligence Learning Environment (AGILE) 2.0 in AWS Cloud. AGILE 2.0 elevates e-learning for 20,000+ users annually. (Subcontract)

U.S. DEPARTMENT OF STATE

Implemented a secure Azure-based virtual exam environment for GTM/TAC/BEX, to replace in-person testing that could save the agency over \$2M annually.

Developed enterprise search applications for the DS/CTO to improve data discovery, including a ServiceNow-integrated solution for easier adoption. We also applied AI/ML for license plate recognition and PDF data extraction, streamlining analysis and operations. Notably, our Batch Search application supported the 2021 Afghanistan evacuation, directly contributing to saving of hundreds of American lives. (Subcontract)

U.S. COAST GUARD

Led the technical support services for the continued sustainment and development of the Communication Station Automation System (CSAS). The IT Consolidation effort we have led in January 2022 will potentially save the U.S. Coast Guard \$500K+ annually. (Subcontract)

PAST PERFORMANCES (COMMERCIAL)

FUSIBLE LLC

Completed the development of 5 mobile applications entirely with US-based talent for Fusible, LLC. 3 mobile applications are for Android, and 2 mobile applications are for iOS.

2 mobile applications are ranked in the App Store's **top 5**, and 4 mobile applications have 4.0+ ratings. Multiple mentions of the applications by big news outlets such as **USA Today**. (Prime)

AGILE PROVIDERS

TooBZ helped Agile Providers become the **#1 rated** urgent care in Arlington by delivering a lean, high-efficiency tech stack. We implemented an open source EMR with automatic encrypted backups and deployed secure cloud storage to support scalable operations. Built entirely with US-based talent, TooBZ also created BZschedule, a custom platform that enables instant patient self-scheduling and provides simple, flexible workflows for providers. These solutions reduced administrative cost and allowed Agile Providers to deliver high-quality care with a very small team.

STERILE SERVICES CO.

Helped streamline the development effort of the SaaS application TrackHubs.

Migrated TrackHubs from On-prem to Azure Cloud.

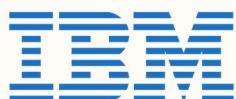

Implemented Azure Logic Apps to send out TrackHubs reminders/notifications. (Prime)

PARTNERS

As an AWS Select Tier Partner, we offer end-to-end AWS cloud solutions that drive innovation and growth. From seamless migration and expert implementation to continuous support and optimization, we help unlock the full potential of AWS to achieve your unique business goals.

As an IBM Silver Tier Partner, our solutions span enterprise-grade platforms across automation, data, and security.
